The goal here isn't for these charges to stick.

It's to silence him and disorganize the ranks over the next few days.

This is the same strategy used in Paris, they went after leadership when they were separated from groups.

Much like antifa and blm fucks get away with burning looting and murdering.... because their movements are nothing more than an idea...

It's called an IDEA. There is no leader, on January 6th.... WE ARE ALL LEADERS!!! It is founded on the principle that we are all there to protect our freedom and this country. They can stop one or two or maybe even 100 of us, in the end they can not stop us all.

All. Cops. Are. Bastards. At least, the ones that are left. Good and bad everywhere, but all this anti-cop, defund the police rhetoric pushed the good ones out of the job. Now, the only people left are soldiers of the standing army that the founding fathers warned us about.

Fuck off. Using a private website is not safe encryption. Pgp, which can be done without the the decoding algorithm along with everyone's public and private keys being hosted on a private website, is actually secure and isn't dumping all messages into the hands of whoever "cryptii.com" is.

A handshake sharing an encryption tool... sure...

if you think i'm suggesting you use that site for covert operations you're retarded.

the idea is to remind people of cryptology in the first place, nobody interested in such would be retarded enough to do what you are suggesting.

there are enough tools there to provide a choice of offline encryption for the uninitiated.

if you want i can share a coloring book instead. the people have to learn somehow and i don't see you teaching them.

I do believe there was some good people involved with BLM at the very start. But you'd have to be an idiot to see it hasn't been taken over by people just as bad as antifa. Some of them are literally the same people. And I don't think antifa takes orders from Nancy pelosi or kamala harris.

Well, the cops around Oak Harbor, and in other similar areas of the state of Washington, all seem like pretty good people; it's once you get into the larger cities that they become shithheads.

Of course, even the worst cops will be your best fucking friend just to get close to you in case they ever get the order to take you down, and there have been enough oathbreakers that it's hard to know who is actually genuine and who is a scumbag. The way I do things, I show appreciation for my local police department when they get it right, which is most of the time, but I don't ever take my eyes off them or let my guard around down them, and I *never* give them any sensitive information.

it is not legal for National Guard or US Military to be armed anywhere other than when going to the range to practice without the use of the insurrection act. They can not even mount an empty weapon on a vehicle and drive

down the road off post.

They can carry empty rifles and empty pistols but that is all. Unless something changed after I got out.

Ha! I won't give them that, though. They're a terrorist organization, and the Church, by displaying that flag, must be, at the very least, investigated for (like many mosques) harboring terrorists and facilitating domestic terrorism. Obviously they won't be, given our alphabet soup agencies like to arm terrorists, but, ya know... in a functional and constitutional America...

What kind if an evil church sues somebody? Aren't they supposed to forgive? I guess not if they have no convictions. This "black church" is suing and having a black man arrested for white supremacy. Just think about that for a moment.

Thanks to the plan of the elite to let antifa run rampant while DA's let them off the hook over and over and over and over, the majority of police officers who actually care about honor, integrity, the constitution, morality, and law have let their jobs.

This is what Antifa/BLM riots were all about, purging the police forces of people who wouldn't "just follow orders".

Agreed he shouldn't have cooperated. There's none coming back.

My point was he admitted he burned the piece of shit flag. He didn't admit he was the one ripping it down as far as I know.

Edit: Here's his actual quote, which mentions only the burning:

"Against the wishes of my attorney I am here today to admit that I am the person responsible for the burning of this sign. And I am not ashamed of what I did because I didn't do it out of hate... I did it out of love. Love for a country that has given my family SO MUCH," Tarrio added.

"The burning of this banner wasn't about race, religion or political ideology, it was about a racist movement that has terrorized the citizens of this country. I will not standby and watch them burn another city.

"So let me make this simple. I did it. Come get me if you feel like what I did was wrong. We'll let the public decide."

So the proud boys need to stop fucking crying like a bunch of sissy faggots, kit up 1-200 guys, go down to where he is being held and get him out by force if necessary

I think thats really all any of us want. Many of us pedes have only our families, and many of us have no one but you guys. I feel like the Proud Boys have completely wasted their platform. They have a fairly identifiable brand, relatable values, and most of all a platform. They could have organized the greatest conservative American first

force. There are many groups that can reach out to recruit and build relationships with people and share essential knowledge and skills. Its like they are all either totally unmotivated or entitled to their little clubs.

What's even more ridiculous is the police got ahold of the video of the guy who ACTUALLY burned the flag and put a clip out saying they wanted to know he he was. So they know it's not Enrique as per their own damn video clip, yet they arrested him anyway!!! (I know he said he did it, but come on...)

The irony is that what the justice system is designed to filter out. Truth and justice. You can claim you are the Zodiac Killer, but if there is no evidence to support it, you aren't. Just like the evidence should support that it isn't him, if it isn't.

But we all know this is just for dog and pony show purposes. Just to make him miss out on the "festivities." Making the process the punishment, as it were. Even at all that, this should be easily thrown out for violation of the equal protection clause, as no one else pulling similar crimes was arrested. Bad precedent is bad precedent

I have a lot of cop friends and former cops that are friends. Most just want to retire once they reach their full pension. They just keep their heads down, follow order, try to get easy over time. They start of wanting to make a difference and then figure out the DA usually sucks, so just do the least you can, don't take chances, no need making a mistake that puts you behind jail or in the ground.

But what's wrong with that? I picked my particular career because I was decent at it. I keep my head down, do my work, do what I'm told, go above and beyond when I can, take my paycheck, drink beers with coworkers. Looking forward to retiring and watching my kids graduate. What's wrong with that? The crazy thing is my life isn't on the line when I put my shoes on for work. I don't have a target on my back. I hide behind a computer screen.

Time to start going to the DC police officer's homes and doing some 'peaceful protesting'

97% of dc voters opposed trump. You are an idiot if you think cops care about conservatives.

That sounds like a great way to get them sympathy. 97% of DC is opposed to Trump.. Why focus on the hard targets like politicians who get off on drama and make money when they get attention. When you call your congressman you talk to a woke staffer that is acting like he cares about his republican boss. Those staffers and the bureaucrats are the real problem, if they don't have a job they don't have power. What we need is a massive long term government shut down with out back pay.

I don't see DC cops ever getting sympathy or politicians especially Democrat ones. I agree about getting them out of power which is why I changed from being a Republican registered voter yesterday to an Independent. I also agree about shutting down the government but there are not enough honest politicians to be able to do it and every shutdown just gives them back pay for not working during said shutdown.
